ABOUT DAN THURMON

Dan Thurmon is the founder and President of Motivation Works, Inc., a company that helps leaders and their organizations move confidently through change and transformation; so they become, achieve, and contribute MORE.

His clients include Bank of America, Coca-Cola, Delta Airlines, Honeywell, Johnson & Johnson, Kraft, Marriott, Microsoft, Procter & Gamble, Prudential, State Farm, and Walmart.

Dan is an expert speaker and performer. He's delivered thousands of presentations across six continents for audiences including world leaders, Fortune 500 companies, entrepreneurs, educators, and even troops on the front lines of battle in Iraq and Afghanistan.

In 2011, he was inducted into the prestigious Speaker Hall of Fame -- and is one of fewer than 200 living speakers to have received this honor.

Dan has served as the President of the National Speakers Association. During his tenure, he led the Board of Directors and the 3,000+ member organization through a critical transformation, which included new governance; new mission, vision, and values; higher member value; and greater financial accountability.

He is also a writer and content producer. He's authored three impactful books: *Success in Action*, *Off Balance On Purpose*, and most recently *Positive Chaos*.

Along with his speeches and books, Dan produces an ongoing, weekly video-coaching series and podcast in which he shares leadership principles and life-enhancement strategies from all over the world in under three minutes.

Dan built his first company, a live entertainment firm, in the late 1980s as a means of financing his education at the University of Georgia. There, he received his degree in Business. In the mid-1990s, Dan changed his firm's focus, from live entertainment to corporate education, so he could more fully use his knowledge about peak performance and help businesses succeed at a much higher level.

He is a health and fitness advocate. In his mid-50s, Dan continues to train and perform advanced acrobatics, and enjoys hobbies such as golf, mountain unicycling and the flying trapeze.
